About This Game

"Long, long ago, the elven sorcerers cast a spell to save the floating world of Ara Fell from destruction. Instead, they doomed it to fall from the sky. By chance, the fate of the world has been placed in the hands of a young woman. Join her as she and her friends endeavor against all odds to save their homeland, all while the clock ticks ever nearer the final hour..."

Ara Fell combines the best parts of Japanese-style roleplaying games with the best parts of western RPGs, as well as including elements of visual novels and adventure games to create a truly unique experience. Atmosphere, emotion and surprise lie at the forefront of Ara Fell's story, driven by deep and accessible characters, each with his or her own past, their own desires and their own motivations for joining Lita's quest. Relive the golden age of the RPG with a game that both pays homage to the past greats, as well as blazing its own trail.

-
- **EXPLORATION** - Ara Fell is a world meant to be explored! Jump, crawl, swim and even fly through the air to solve puzzles and discover new locations filled with hidden treasure, secrets and adventure! Every corner of Ara Fell is designed with exploration in mind.
 - **OPEN WORLD** - Most of the world can be explored from the moment you leave Aloria Village, the heroine's home town... provided, of course, you're strong enough. A clever explorer may be able unlock secrets and discover powerful equipment early in the game if he or she commits to taking advantage of the open nature of the game world.
 - **TACTICAL COMBAT** - Ara Fell may be a story-heavy game, but the world is still fraught with danger. Choose specialized equipment and statistics, customizing each character to best suit your play style, and to best thwart each boss battle's unique mechanics.
 - **CHARACTER DRIVEN** - When you join Ara Fell's unwitting heroine on her quest to save her homeland, you'll discover a world filled with vibrant characters who laugh, cry, crack jokes, lose their tempers, and even their will to go on as the size and scope of the curse that plagues Ara Fell becomes apparent. Friends and villains alike are not who they seem as the stakes grow ever higher...

I bought this game some time ago in a Steam sale but never really got round to playing it. Well I installed it a little over a week ago and have been playing it most evenings since. I have just completed my play-through of it and absolutely loved it. The story is very well written and superbly executed with the exact right amount of pace; the characters are lovable, charming and quirky in their own rights; the gameplay, whilst basic and fairly easy, is appealing and harps back to the days of classics JRPGs on the SNES V Mega Drive; all-in-all, a very strong game that will easily keep you captivated for at least 15-20 hours. Word of advice... INT! :D Recommend this game no end!. The epitome of a hidden gem. Eloquent, open gameplay in a retro JRPG turn-based shell. What an absolute delight.. The epitome of a hidden gem. Eloquent, open gameplay in a retro JRPG turn-based shell. What an absolute delight.. This is a very charming RPG with a retro 16 bit style. The story and character development is good and the environment is beautiful, extensive and fun to explore. You can skip battles if you prefer to play through the story without fighting. The pacing is good and nothing feels unfair. Ther are a lot of side quests and extra secrets to find so it doesn't get dull. Nearly every corner of the map has something in it and every NPC has different dialogue. Also the dev replies almost instantly to bug reports. I'd recommend this one to anyone who likes RPGs and retro graphics.. I bought this game some time ago in a Steam sale but never really got round to playing it.
