nostalgic :D Very Good Game noice graphics Updated 16/04/2019 we Already bought BR3 and BR4 :D. I don't remember the handling of the cars being this much of a yikes in the web version, but everything else was ported over perfectly. If you played the web series of Burnin' Rubber, the nostalgia from playing this is overwhelming. If you didn't, it's a second-rate racing game with annoying bugs.
