Inventory Management Proven, Scalable, Secure & Cost-Effective Accuracy, efficiency and good performance have always been the name of the game for Fedex, and now this same efficiency and good performance are being used to help its couriers manage inventory as accurately and efficiently as they do their deliveries. The FedEx Inventory Management Application (FIMA) is a comprehensive solution that delivers all the benefits of a standard warehouse management solution but with additional features that make inventory management an efficient and effective task for any courier. FedEx is always looking for ways to save time and money while being able to work more efficiently and effectively on its customers' behalf. By customising its solutions, reducing costs and increasing efficiency, it's not difficult to see how this software can pay for itself. WHAT IS FIMA? FIMA is the answer to all your courier's inventory management needs, giving you all of the power of a standard warehouse management system with some additional f678ea9f9e
